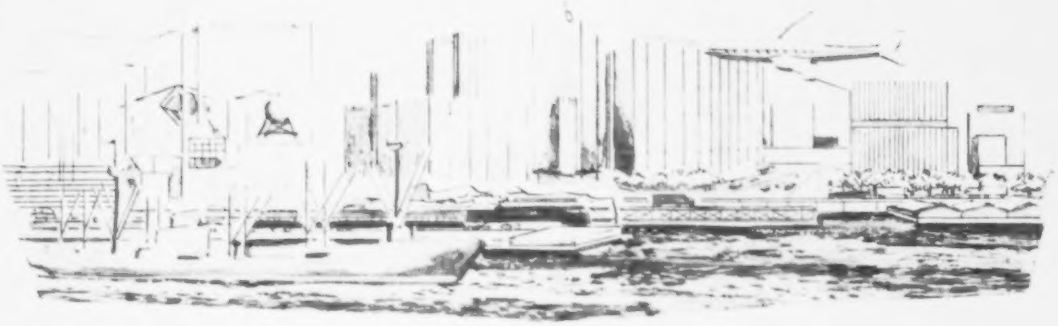
LEGISLATIVE
WINNIPEG



1960 DIRECTORY OF

MANUFACTURED BY
BRITISH COLUMBIA

The functions of the Department of Industrial Development, Trade, and Commerce are to encourage Industry, to extend Foreign Trade, to investigate matters of Economic Importance, to collect and publish Statistical Information and to assist in Industrial Development.

In these fields, the Department of Industrial Development, Trade, and Commerce stands ready to assist existing activities and encourage new enterprises by placing its facilities at their disposal, and to co-operate in all problems incidental to establishment.

With its comprehensive view and its organization for Research and Investigation, it can be of very real assistance and cordially invites inquiry.

The facilities of British Columbia House, London, England, whose territory includes the United Kingdom and the Continent of Europe, also are available for market and product information.

The Department of Industrial Development, Trade, and Commerce is *ready* to assist you—

- on plant location, and can provide specific information on planned industrial sites and other requirements.
- in providing composite industrial maps showing land zoned for heavy and light industry in the Vancouver metropolitan area and other areas of British Columbia.
- in obtaining information regarding source of supply for raw materials.
- in securing export markets for goods manufactured in British Columbia.
- in obtaining reliable agents for manufacturers and exporters wishing representation in British Columbia.
- in providing information on the services offered by the British Columbia Research Council concerning industrial and scientific research.
- in the analysis of market research problems.
- in furnishing regular statements relating to current economic conditions.
- in the preparation and analysis of freight-rate material and transportation problems.
- in providing external trade statistics to exporters and importers and interested businessmen.
- in making surveys of an economic or statistical nature.

Introduction

THE motive which prompts the continued publication and distribution of this British Columbia Trade Index is the desire to lend added impetus to the current rapid industrial expansion in our Province. Scores of new industries have gone into production and many old ones have greatly increased their former capacity.

The data brought up to date herein are intended to serve as a simplified ready reference for potential buyers at home and abroad, and should tend to play an important part in the further development of both the domestic and export trade of British Columbia.

This information has been compiled from returns sent in by the firms concerned to the Bureau of Economics and Statistics and from other departmental sources. With a view to having the index as complete as possible, it has been deemed advisable to use other reliable sources of information in regard to firms who have neglected to report but who are known to be manufacturing. The addresses given in the index are of the main place of business or the head office. We anticipate including branch plants in future additions.

As far as possible, we have attempted to fit the commodities shown in the questionnaires to the headings shown on our code. This has been done in order to eliminate certain duplications in description and definition of commodities, and also to keep the master code from becoming cumbersome. The use of general product headings has been avoided where possible. Users are advised to look for specific headings as well as general headings. For example, in addition to the heading "AUTOMOBILE ACCESSORIES, EQUIPMENT, OR PARTS " will be found the headings " RINGS, Piston "; " ENGINES "; " RADIATORS "; etc.

We would like to extend our appreciation to those firms answering our questionnaire, because they have made this publication possible. I wish to thank Messrs. R. W. Fetherstonhaugh and W. K. Dornan for their thoroughness in the preparation of this Index.

M. H. A. GLOVER,
Director of Bureau of Economics and Statistics,
Department of Industrial Development,
Trade, and Commerce.

Parliament Buildings,
Victoria, B.C.

PART I

AN ALPHABETICAL LIST OF BRITISH COLUMBIA MANUFACTURERS

☆

The address given of firms included in the index is that of the main place of business, usually the head office, although it may be both factory and office address. In order to facilitate the work involved in compiling the index, abbreviations have been resorted to, such as "Co. Ltd." for Company Limited.

The dagger (†) against firm names on the following pages denotes a change of name or address. These changes are detailed on page 48.

A list of firms received too late for inclusion in the main body of the Index will be found under "Additions" on page 48.

Zimmer Bros. Sand & Gravel Co. Ltd., 123 S. 7th Ave., Box 1298, Cranbrook. Gravel.

PART II

AN ALPHABETICAL LIST OF PRODUCTS MANUFACTURED IN BRITISH COLUMBIA

☆

Detailed company addresses are listed in the green pages of this directory.

In order that articles of a similar nature will appear close to one another in the Index, the word of the heading considered most important has been placed first; i.e., furniture, household, bedroom; fish, canned, salmon; castings, brass or bronze. In cases where the inversion seems misplaced, the headings have been listed in their customary sequence. Precise commodity descriptions are used wherever possible.

To facilitate the work involved in compiling the Index, abbreviations have been resorted to, such as "Co. Ltd." for Company Limited.

The asterisk (*) against the firm names on the following pages denotes companies engaged or interested in export trade.

DIRECTORY OF PRODUCTS MANUFACTURED BY BRITISH COLUMBIA INDUSTRIES
